Telegrams.
(Per Havas Agency.)

United Kingdom
London, 10th.—Queen Victoria sent a
telegram to-day to President Krueger
congratulating him on having set the
English prisoners he held at liberty, and
assuring him of Great Britain's friend-
ship. This telegram is considered to be a
forerunner of a peaceful solution to the
South African question.
The latest despatches from the Trans-
vaal state that President Krueger will
delay the release of Dr. Jameson and the
other prisoners until tranquillity has been
restored in Johannesburg as the inhabi-
tants of that city still continue to threaten
the authorities with arms in their hands.
According to advices from Johannes-
burg 22 members of the Reform-Commit-
tee, amongst them Colonel Rhodes, have
been arrested and conveyed to Pretoria,
accused of high treason.

France
Paris, 10th.—President Faure has pro-
mised to visit Marseilles and Algiers this
year, and Tunis also, perhaps. Some of
the Cabinet Ministers will accompany
him.
The journalist Saintcère was also ar-
rested to-day on the charge of having
levied black mail on Max Lebaudy. This
scandal is assuming serious proportions
and is the general theme of conversation.

Germany
Berlin, 10th.—Telegrams from Friedrichs-
ruhe say that Prince Bismarck has ex-
pressed the opinion that war between Ger-
many and England is impossible, and that
it is precisely because it knows this well
that the British Government is making
such ostentatious preparations for war.

United States
Washington, 10th.—It is asserted that
Congress will sanction the annexation of
the island of Hawaii. President Cleveland
will withdraw his opposition to the pro-
ject, in view of public opinion. In case
the project is approved, the treaties
Hawaii has with Foreign Powers will not
be altered in any way.

Telegrams from Chicago, Pittsburg,
Boston, and other large towns state that
all the "Working Men's" Societies approve
of recognising the belligerency of the
Cuban rebels, and that everything will be
done to persuade Government to recog-
nise Cuba as a republic.
Telegrams from Havannah announce
that the rebels destroyed the "Roque"
sugar cane plantation in revenge for the
owners having assisted the Spanish troops.
The losses are \$2,000,000 gold.

Italy
Rome, 10th.—It is asserted that Ras
Makonnen refuses to obey the orders of
Menelik and that he will retire from
Makalle. The Italians encamped in Ma-
kalle repulsed an attack of Menelik's
troops.
It is asserted that the Government has
resolved to send 5 more battalions of in-
fantry to Africa in view of the large

number of Abyssinians now up in arms.
It is said that several batteries of field-
artillery will accompany these forces
which should leave before February.
The Government has received no fresh
news from General Baratieri concerning
the unsuccessful attack made on Wed-
nesday by the Shoans on the Garrison of
Makalle.

La Capitale in its issue of to-day as-
serts that 10,000 more men will be sent to
reinforce the army commanded by Genl.
Baratieri, troops which are subsequently
intended to occupy Harras.

The attack on Makalle is attributed to
a desire on the part of the Abyssinians to
obtain provisions and cannon, and also to
entice General Baratieri out of Adigrat.

La Riforma justifies the conduct of the
Government and maintains that re-infor-
cements have been despatched to Africa
with all possible speed.

La Italia announces that fresh troops
will leave for Massauah on Monday or
Tuesday.

Russia
St. Petersburg, 10th.—A terrible fire has
made an end of many houses in Moscow,
and some lives have been lost. It was
purely accidental.

The news from Sicily is very disheart-
ening. The misery is so great that emi-
gration is increasing daily, and many
families are now going to Tunis.

Spain
Madrid, 10th.—The Cabinet is greatly
alarmed at the progress of the revolu-
tion in Cuba, and more troops will be
sent to Martinez Campos before the end
of this month. More war vessels will
also be sent, to prevent the landing of
men and supplies for the rebels.
The contradictory news daily received
from Cuba is causing great irritation in
the public mind.

A monster street meeting is spoken of
to petition the Government to make known
to the country what is the exact situation
of affairs in that island in order to allay
the general anxiety which prevails
amongst all classes.

Japan.
Tokio, 10th.—Large re-inforcements are
to be despatched to Formosa to quell the
rebellion of the Black Flags. The first
detachments have already left for that
island.

Chile
Valparaiso, 10th.—The *Union* states that
the commercial treaty between Chile and
Brazil is the most important step Chile
has taken for a long time to improve her
trade relations.
Canon Jara has left for Viña del Mar
to restore his health sorely impaired by all
junketing in the Plate.

The strike of coachmen in Santiago
continues with no prospects of coming to
an end.
Mr. Benjamin Dávila Larrain has ceased
to be a member of the *Heraldo* Staff.

Wheat sells in Talcahuano at \$4 per

Brazil
Rio Janeiro, 10th.—There are rumours
of conspiracy in San Pablo to overthrow
the Brazilian Government.
The weather is unbearably warm.
Thirty cases of yellow fever are re-
ported to-day.

Exchange is quoted at 93/32d.
Argentine Republic
Rosario, 10th.—The Western S. F.6 Rail-
way has received 4 new engines.
The German residents are preparing to
celebrate the anniversary of the Imperial
Constitution, on the 18th of this month.
Prices of wheat and linseed are the
same as yesterday.
Maize is firmer and sells at 3.30.
There are over 700 parcels for Rosa-
rio detained at the Buenos Aires Central
Post Office.

THE DARK CONTINENT.

Although the telegrams from Europe
convey the impression that the Trans-
vaal difficulty is, as regards the Boers,
arranged, the sting of the serpent that so
suddenly sprung from the arid, burning
sands of Africa is still felt.

There was something so mysteriously
sudden in this Transvaal rumpus that
even the wisest statesmen will look with
suspicion on a state of affairs which, with-
out a moments' warning, so abruptly con-
vulsed the world; and if the wisdom and
prudence of the triumphant Boer in deliv-
ering up Jameson and his filibusters to
the British authorities has allayed the
public anxiety, the injudicious zeal of
Queen Victoria's grandson has awakened
a political distrust pregnant with the most
serious consequences.

To properly understand the possible
sequences of this Transvaal question it is
necessary to read back, and study well
what has been going on in Africa within
the last decade or two. The partition of
the Dark Continent by the European
powers is now almost complete.

Of the vast area of 11,900,000 square
miles which comprise the African Con-
tinent only 2,500,000 square miles remain
yet to be accounted for. Africa may be
considered to-day as completely under the
European system, and forms new
colonies of the various European nations,

reaching from the Cape of Good Hope to
Cairo. Within the last 20 years France
has increased her African possessions
eightfold, England seven fold, if not a
trifle more. The Congo Free State is of
a million square miles and is Belgian. Ger-
many and Italy have for the first time in
their history assumed serious African re-
sponsibilities, and all this partition has been
effected and the territory acquired by
proclamations, and carried out by the
chartographer according to the degrees of
latitude and longitude: the surveyor, the
engineer, the mining expert, and the
prospector have followed in the wake.

It must always be remembered that
railways, steamers, gold mines and col-
onies create not only political but physical
problems. Africa is not to-day what it
was 40 years ago, and each of its sub-
divisions forms a new kind of integral part
of the European systems with the two
Dutch Republics, and the huge Congo
Free State as neutral ground for competing
states. Africa is a region of undeveloped
resources and of unknown possibilities,
and we have yet to see its potentialities
as a moral factor in the politics of Europe.

From the remotest ages Africa has
always exercised mysterious influences,
and has thrown over Europe a species of
spell or magnetism. At one period
of the world's history she dominated
European thought. She was regarded
by the ancients as the "Aridaatrix
Leonum," nevertheless, she proved her-
self the matrix of a mine of thought,
teaching, and knowledge. At all times
this wondrous ancient continent has sent
from her burning soil to the colder torpid
European North some burning thought in
religion, some new philosophy, some ray
of knowledge from her clear and starlit
skies, so much so that it has now reached
a proverb "That there is always something
new from Africa," and as it has been
beautifully remarked by the historian,
"Africa, though often conquered in rude
war, has overcome her conquerors. To
Greece herself, the intellectual Mistress
of Rome, she gave arts, letters and Cad-
mean lore. To Rome she gave, as Dean
Milman reminds us, the system of Latin
Christianity; glimpses of power flash
from her inert mass, the power indeed of
"thought and intellect, with intermittent
gleams, shooting upwards to the skies.
"as if her sands and deserts, heated
sevenfold, were a forge at which the
"African Titans worked."

The partition of Poland was not more
complete than is the partition of Africa, a
continent which up to yesterday was only
considered useful to breed lions, tigers,
etc., for the Zoological gardens, and slaves
for Europe but all that is changed; now
we must lay aside our Bible, our Homer
and our Herodotus to understand
the present state of affairs in the dark
continent, every inch of which is coveted
by European nations. The valley of the
Nile is a contending place of European in-
terests. Algiers may be regarded as a part
of France, and it remains yet to be seen
what France will yet do with the
2,800,000 square miles over which she
holds sway. She is supreme in Tunis and
Tripoli to the East, Morocco to the West,
Southward there is French Congo and the
Congo free state. Italy is over head and
ears into Abyssinia, where the Russians
are now looking for a foot-hold. Eng-
land holds the main avenues of
trade in the dark continent, from
the rock of Abyla to the Cape of
Good Hope, and in the plenitude of her
ocean sway she girdles Africa, and may
be regarded as the lineal successor of the
once great African sea power, Carthage,
and this Boerish question has at once
brought to the front the strong arm of
her navy and the unquestioned grasp she
has of Africa by virtue of her ruling the
waves. From Gibraltar to Simons bay
she holds as it were all European powers
who have colonies in Africa in the hollow
of her hand, and her African Empire is
the strongest in the world, since it rests
upon her navy. This Boer question,
which has caused so much alarm, may in
the end be productive of great good, since
it attracts the attention of the civilised
world to the frightful state of affairs in
Ashantee and other parts where, within a
few days sail of London, the barbarian
monarchs sell young girls by the thou-
sand and at five shillings a head and decapitate
the fathers to make a holiday for the
bloody ruler.

THE WAR SCARE.
By far the most alarming news from
Europe is the burning in effigy of the
German Emperor by the officers of the
1st Royal Dragoons, of which the Em-
peror is Colonel—a most intemperate
and ill advised step—and which most as-
suredly will meet with the severest con-
demnation from the Commander-in-Chief, Field
Marshal Wolseley. This dragoon regi-
ment that has risen into such sudden
notoriety is what is termed a crack re-
giment, quartered in the Portobello cav-
alry barracks, Rathmines, Dublin, and
officered so:—
Colonel-in-Chief—Emperor William II,
King of Prussia.
Colonel—Fred. Marshall, C. M. G.
Lieutenant-Col.—Henry Tomkinson.
Majors—W. H. McLaren, John F. Burn
Murdoch, Ferdinand W. Greatrex.
Judging from the above names, none of
the officers commanding this regiment are
Irishmen.

Rathmines, where the regiment is quar-
tered is one of the most beautiful and
fashionable suburbs of the city of Dublin,
and the barracks one of the finest and
most commodious in the United Kingdom.
It is, however, renowned for its hospitalities
and convivialities, and this effigy burning
flavors more of a John Jameson mess
spree than anything else. It would be
a mistake to attach much importance to
it; as the German officers at any of their
barracks on the Spree might reciprocate
the lark. There is, however, no shutting
our eyes to the acerbity of feeling that
has so suddenly sprung up about this
African question, and which bodes little
good.

From the tenor of the telegrams from
New York, Berlin, St. Petersburg and
Paris, it would seem that there is a com-
bination by the great European Powers,
Germany, Russia and France against
England, which if true will at once se-
cure the sympathy of the world for En-
gland, fighting single-handed against such
odds.

If unhappily war should break out, it
will be the most desperate war of the ex-
piring century, and lead to changes that
we know not of.

The English navy to-day is the most
powerful the world has ever seen. Her
empire on the seas is beyond all question,
and it is not within the region of pos-
sibilities that any or all the European
Powers combined would attempt to in-
vade the British Isles. Her only vulner-
able point, therefore, would be India,
which is open to Russian invasion; but
even under the supposition that the Rus-
sians made headway there, it would be
more than compensated for by the clean
sweep England would make of everything
continental in Africa, and the long pen-
ding question of Egypt would be once and
for ever settled.

We cannot, however, bring ourselves to
believe in a war in the present age of
enlightenment and civilization, although the
effigy shindy in the Portobello barracks,
Dublin, points to an inexplicable outburst
of animosity which fans a flame that, if
care be not taken, may burst into a con-
flagration.

The following are the advices.
The British Admiralty has ordered a
division of 15 torpedo catchers to sea.
This order has attracted special attention,
as the German navy has no such class of
boats. A great number of English men-
of-war are taking in coal and ammunition.

Two thousand men are hard at work in
the Devonport Arsenal, whilst 4000 are
working day and night at Portsmouth.
Mr. George Goschen, first Lord of the
Admiralty will inspect the different Arse-
nals to-morrow. The Majestic, an ironclad
of 14,900 tons, will join the Channel
squadron next Tuesday. The naval autho-
rities in Liverpool announce that the coast
defences in that part of the country are
in excellent condition. Fifty-three ves-
sels can be got ready as cruisers within
15 days. The whole coast of England is
in a safe condition as regards the defen-
sive works.

Government will spend the surplus of
the Budget in increasing the navy.
Count von Kautz loudly applauded the
German Emperor's attitude in the Anglo-
Germanic Question, during a speech he
made in the Reichstag.

The German press laughs at England's
preparations for war.
The English fleet in the Channel will
also include the following vessels:
1st class cruiser Thetis, 7350 tons,
speed 20 knots.
2nd class cruiser Hermione, 4360 tons,
speed 20 knots. Lighter, Surly, Starfish,
Shark and Sturgeon. These vessels are
torpedo destroyers with a speed 27 to 30
knots.

The Berlin correspondent of the *New*
York Herald states that Emperor William
summoned Prince Hohenlohe, his Chan-
cellor, and the Minister of Marine on
Thursday to discuss what Germany should
do in case England lands troops at Cape
Town and marches on Transvaal. Em-
peror William and the Czar of Russia
have exchanged telegrams on the Trans-
vaal question, and it is very probable that
Russia will assist Germany, and that
France will regulate her course in the
present question in accordance with Rus-
sia's plan of action.

The *Times* published a telegram from
its correspondent at Berlin declaring no
arrangement exists between Germany and
Portugal to act jointly in the Transvaal
Question. The same telegram states that
the landing of German sailors in Delagoa
Bay is merely a measure taken to protect
German subjects in Pretoria.

The *Pall Mall Gazette* states that the
Queen will try and obtain an explanation
from Emperor William for his attitude in
the Transvaal Question.

The officers of the 1st regiment of Royal
Dragoons garrisoned in Dublin, buried
the effigy of the Emperor William
who is Honorary Colonel of the regiment.
The populace cheered the officers when
the news of what they had done spread
through the city.

A telegram from St. Petersburg states
that Russia has promised to help Ger-
many in the Transvaal Question.

Portugal will remain strictly neutral,
and is determined to prevent the passage
through her possessions of German or
British troops.

The German press is alarmed at En-
gland's intention to increase her forces in
South Africa.

One of the oldest houses in Calle Cangallo is now being pulled down and a splendid house going up on the site. The property is alongside Mr. Grant's famous "libreria" and between San Martin and Reconquista. Thirty years ago that square was one of the most fashionable in town. Mr. Temperley had his warehouse in front, alongside was the "Ancla Dorada," where our old friend Mr. Henry N. Hart lived for a quarter of a century and at the corner alongside Grants was the far famed "Cafe Catalanes", where every shopkeeper in town spent his evening playing dominoes. In the very old house which is now being pulled down Pauline D. Hote and some other characters of the French Company that played every night in the Argentine at the corner lived and had jollifiers, the less said of which the better. That little French theatre was the jolliest place in town, and always crowded. There is nothing in Buenos Aires to rival it to-day, and the old Alcazar which Hector Varela started was never a patch in the way of fun and amusement on the French theatre. Colonel Tottenham once kicked up a frightful row in the block by trying to carry Pauline in his arms up to the Café Catalanes alongside of Grant's; but those were the grand old days or rather grand old nights in Buenos Aires. Hart threatened to leave the Ancla Dorada if the "serenos" did not keep better order in the "barrio". "Sic transit gloria mundi".

Our friend Mr. Rópe walked into our office yesterday to tell us that the future battle field of the world is Delagoa Bay, which the Boers have been trying to get for the last century, it being the only outlet for them to the sea. Our new atlas which has cost us so much money has proved after all a splendid investment, as people are in and out of our office every hour to have a look at it and to study the newest and best map of Africa. Delagoa Bay belongs to the Portuguese, which means England, and it is whispered that the Portuguese are inclined to sell it to England, which has always proved Portugal's best customer for her port. Rópe takes a rather gloomy view of things and believes in a general war.

The Duchess di Genova has brought out this trip the largest list of passengers on record, over 2,000. We salute our old friend Mascasini and welcome him with his living cargo. The row in Europe will probably flood us with emigrants, and already we note what is up to 25s. This is rather good news for our friends the colonists. At the Canary Islands the people can't get off quickly enough to the Plate, and all our steamers that call there are at once boarded by emigrants. The Canaries make capital farmers; nearly all the haceras around Montevideo are owned by emigrants from the Canary Islands.

We live in the most exciting times; no man can say what the morrow may bring. An American subscriber entered our office yesterday afternoon with the astonishing news that the German war ships Irene, Princess Wilhelm, Cormoran and Kaiser have suddenly anchored outside Amoy with the intention of occupying the adjacent island of Quemoy, to the Eastward of Amoy harbour for the purpose of establishing a coaling station there, and the news has caused the greatest excitement in Shanghai. We give the news as we got it, not having any Stand by O'Gorman out there to advise us on the matter.

Another piece of startling news is the annexation of the Sandwich Islands by the United States. It seems that the whole business is cut and dry, and the next mail will bring us full details of the new state of Hawaii.

The concert at Mr. Taylor Brown's College in Calle Thames, Palermo, was a decided success. The attendance was very large. The pupils were highly applauded for the execution of the lengthy programme. Miss Anita Murray played with great taste on the violin portions of Lucrecia Borgia y Cavalleria Rusticana, while Miss P. Keenan accompanied on the piano with effect. One pupil, Juan Pellicciari, 12 years old, quite astonished the audience by his wonderful performance on the piano of Gioconda, Semiramide y Rigoletto. We have rarely witnessed such talent in a child of his age. The program was carried out in such a manner as reveals the pains Mr. Brown takes in the musical education of his pupils.

Coming events cast their shadows, before, and in underwriting quarters yesterday war risks and the German flags were spoken of together. The rumour that leading German houses here had received telegrams from Europe ordering them not ship under their own flag was denied in high German commercial circles; but if war should break out, they will naturally adopt this prudent course.

The latest news from the Argentine Taffyland, Chubut, comes from the Governor of the Territory himself, so must be true. His Excellency has informed the Minister of the Interior that he has sent on armed party to put a stop to the Indian raids.

A long Cabinet Council was held yesterday by President Roca and his Ministers, and some reserve was maintained as to what it was about.

The countenances of the sugar monopolists looked the reverse of sweet yesterday owing to the increasing probabilities that the scandalous Sugar Bounty Bill will be kicked into next session.

SCHLOSSBRUNNEN "LA GERMANIA"

The Revd. R. F. F. Handcock has favoured us with a kind acknowledgment of the free space given in our columns last year to St. Peter's Church Flores.

Here is a spicy paragraph kindly sent us by a jovial subscriber who is as fond as we are of ourselves of everything funny, breezy and "spry", from a joke to an American heiress:—"To keep American Heiresses at home. A New York news paper prints a list of American heiresses who, during the past twenty-five years, have married foreigners of title or rank, giving also the fortune of each. There are 134 in all, and the total amount of the fortunes thus taken out of the country is 161,153,000 dollars, or about £32,230,000.

"You cannot go", says the writer, "into the high society of any capital of Europe without finding titled American women, but against these hundreds of women there is not one well-known case of an American man married to a European woman of noble family." This remarkable migration of heiresses is at last attracting serious attention and causing much discussion in the United States, and plans are being suggested to put a stop to it. One authority thinks that if the next Congress at Washington would authorize titles of nobility—though we believe the federal constitution would have to be changed—the National Debt might easily be extinguished by their sale. For example, \$5,000,000 might be charged for the title of Duke of Virginia, and 2,000,000 dollars for Baron of Pittsburgh. Rich American girls, it is urged, should be kept at home, even if an order of nobility has to be introduced."

The *Illustration Sud Americana* publishes in its last issue excellent portraits of General Eguisquiza, President of Paraguay; Don Joaquin Rondelo, ex-President B. O., and Dr. Toro, Chilean Minister of Justice; splendid views of the new Congress Hall, the station and wharf of the Central Argentine Railway at the Tigre, etc. etc. There are also some very nice fashion plates.

When a horse dines he prefers the table d'ot to the dinner à la cart.

Horseless carriages will soon knock the spine-crooking bicycle off its perch. France has the honour of leading the way with the new vehicle. In England, however, several Acts of Parliament will have to be repealed or altered before the horseless carriage can appear in the streets or on the high roads; but the "Self-Propelled Traffic Association" has the matter in hand, and the Horseless Carriage is bound to boom and go bang through all the red tape in its path. Sir David Salomons, Bart, Chairman of the above Association, said in his speech at the last meeting that the new machine was objected to by two classes—those who deplored the disappearance of the horse, and those who said that the carriage did not eat oats. Sir David pointed out that at the present time a large proportion of the horses used in this country came from abroad, while nine-tenths of the oats consumed here were imported, and the introduction of the manufacture and use of the horseless carriage would keep the money in this country which is at present paid to the foreigner for horses. (Hear, hear.) He did not think that the present any more than the last Government would throw any obstacles in the way of the passage of the Bill to be promoted by the association, and he had every reason to hope that the Government would regard the project with favour. Certain safeguards, similar to those relating to traction and other engines, would be inserted in the Bill, and any attempt to travel at a rate of 30 miles an hour ought to be deprecated. The machine was still capable of great and necessary improvement, and he maintained that the English people were the only people competent to carry out those improvements. (Hear, hear.)

Justice in France seems sometimes to deal as tenderly with criminals as we do here. The other day a drunkard staggering home amused himself by placing a large stone on the track of the Paris-Arpaion railway, and another stone in the switch to prevent its working. He then sat down on a hill close by as if in a front seat at the circus, to enjoy the fun. Luckily the engine-driver saw the obstacle in time and stopped the train. The stone was removed and the jovial drunkard arrested. When brought to trial his only excuse was: "I did it only for fun, I was too tight to know what I was about". The jury must have been composed entirely of disciples of Bacchus, for it acquitted him!

FOLLET'S SYRUP

suppresses the pains or insomnia caused by Neuralgia, Gout, Migraine, Asthma, Cough, Fatigue of the brain, Nervous irritation, Mental preoccupations, the heat of climate, etc. Follet's Syrup procures a deep sleep analogous to the normal sleep; its employment does not expose to any of the inconveniences of opium or of morphia.

It is the best form for the administration of Chloral; its preservation is perfect and, thus prescribed, it does not irritate the stomach.

Follet's Syrup is sold in nearly all the pharmacies of all countries, and is prepared by the Firm of L. FARRÉ, A. CHAMPAGNY & Co., succ^{rs}, 19, rue Jacob, Paris, who obtained the highest recompense, gold medal, at the international Exhibitions of Sydney, Amsterdam, Paris, etc.

Gold Premium.

First Ring..... 231.50%

Second Ring..... 231.00%

This was a day of denials, beginning

with the official declaration of the Minis-

ter of Marine of Italy that no Italian

iron-clads had been sold to Argentina, and

winding up with a semi-official announce-

ment here that the Treasury has no mo-

ney for such extra expenditure. This

cooled the market and the enthusiasm of

the bulls; the premium ran down and the

contango fell off. The general tone of

news from Europe was also less alarming,

and the uncomfortable feeling in the mar-

ket was reduced. Add to this a cable-

gram from London announcing a gold

shipment of a quarter of a million sterling,

and we find an explanation of the fall that

took place in the premium this morning.

About eight hundred thousand dollars

gold changed hands at the first ring.

Business for cash embraced a quarter of a

million; the premium opened at 232%,

fell steadily, and closed at 231.50%. About

three hundred thousand dollars were sold

in a much easier market for the end of the

month; the premium opened at 233.60% and

closed at 233%. A small amount was

sold for the end of February at 236% and

235.50% premium. The market

closed flat.

National Cédulas F fell to 78.80 and

closed at 79. La Plata Cédulas closed at

17.30. Funded Bonds of the Floating

Debt were quoted at 77.50. A few shares

of the Banco de Italia were posted at

76.50.

siness effected at the first ring to-day:—

The denial given to all the rumors of

purchase of more war-ships has removed

a great load from the market, as a belief

was gaining ground that this fresh ex-

penditure would rush into two millions

sterling, on the top of all that is being spent

on account of armament ordered last year.

It is also satisfactory to note that the in-

crease in army forces voted by Congress

will not be carried out for the present,

and this is no small item, since it affects

nothing short of six more regiments. It

is quite evident that the Minister of

Finance has impressed upon his colleagues

in the Cabinet the urgent necessity of re-

trenching as much as possible. These

facts are calculated to spread confidence

in the market, the equanimity of which

had been rudely ruffled by the recent

rumors.

We see by telegrams from Chile that

the Government there have deemed it ex-

pedient to let the £4,000,000 stg. loan

stand over until the present war clouds

in Europe blow over. It is surmised that

the real cause of this delay in launching

the loan is the reluctance of London

bankers to take up what is viewed both

in Chile and in London as a war-loan in

disguise, and under such suspicions it

will be very difficult to induce the public

to subscribe. Another feature in the

Chilian situation is the falling tendency

of the exchange rate and the collateral

efflux of specie. There must be some-

thing radically wrong on the West Coast

when we see how the 184. Conversion

Scheme is jeopardised. Affairs in Brazil

are also unsatisfactory: in Rio the rate

of exchange is tottering at 94 d. Here in

our market where exchange at this stage

of the season should be as firm as a rock,

more especially as importation is so small,

we also see a suspicious weakness in the

situation; yet heavy gold shipments are

announced from London for the Plate.

The exchange market continued in

"statu quo." Business was quite nominal.

There were drawers at 43 1/4 d. takers at

45 1/4 d. Francs continued at 8.09 on

France, 5.10 on Belgium, marks at 4.13

on Germany.

It is known that of the gold consign-

ment, wired yesterday, the whole amount

comes out to the Plate, viz:—

£180,000 stg. for B. Ayres.

£ 50,000 stg. for Montevideo.

The demand for paper money was stiffer

than ever to-day. At the banks paper

discounts were quoted at 3 1/4, gold at 7 1/4.

They said on 'Change to-day that the

Government remits a round amount of ex-

change by the Royal Mail steamer

Danube.

Telegrams from Rio this evening quote

exchange on London at 9 3/8 d.

According to advices from the Mount

the Minister of Finance, when taxed in the

Chamber with a query as to whether the

Government had accepted in the last

compact the onus of responsibility for all

questions and claims that may arise, refused to reply, which leads to the conclusion that the stipulation does exist. Thus the nation not only has to hand over £300,000, but also to guarantee the claims of the original concessionaires against the Sociedad Uruguaya, Messrs. Bowen, Mallmann & Co., and even against the Government itself. This might have been supposed from the start, as it was not likely the English lenders would take a hand in the lawsuit, but that it was not anticipated is apparent. There seems to be so much difficulty about the whole business that in spite of the evident general desire to get the money and start the bank, it is very doubtful if the obstacles will be smoothed over to the syndicate's satisfaction.

The whole town of Rio Cuarto is on "strike." The taxes were so monstrously expanded that the bakers, market gardeners, cartmen, juries, butchers, and milkmen all joined hand, and even the bootblacks chimed in on general principles. The enthusiasm ran so high, in fact, that the discontents made a demonstration for the benefit of the provisionals, who promptly called on the 2 officers and a man, that constitute the police force, and the riot act would probably have been brought into play had there been one to read. All this sounds very funny, but is not so. It may develop into something very serious, such is the whole-souled unreasoning zeal with which the municipalities are piling up burthens on the public. We see it here in the way the Las Flores farmers are worried by the corporation, and we have frequently drawn attention to the hegría of colonists from Santa Fé—driven out by taxes. The country at large is beginning to resent this intolerable abuse, and unless there is a prompt cooling-off, the consequences may be more far-reaching than at present seems likely.

The telegraph line to General Villegas will be inaugurated on Monday next with a great local flourish of trumpets. Governor Udaondo will be represented by his private secretary.

In Rosario there was a momentary scare over a reported appearance of Yellow Jack at Colastina. Fortunately there does not seem to be anything in the report, and the public health is excellent.

The flourishing town of Matry has handed round circulars inviting the farmers and estancieros to take part in the rural show to be held on 18th, 19th, and 20th February. Demands for space are requested to be promptly sent in to the organizing committee for publication.

The sugar-bounty bill brings us a metamorphosis daily; it seems to change form as readily as the chameleon changes colour. The latest phase is that Congress will suppress the intervention of the Banco de la Nación as a regulator and provide for the formation of a syndicate of sugar-kings to look after the export of the surplus production, on the tender system, and we suppose with a maximum price limit, though this is not clearly stated nor even insinuated. This looks in every way more workable, than the Finance committee's proposition, which was the butt of the market. Still the objection to the business is not so much to the form as to the principle. There is no glossing over the heresy. It would seem as if some occult influence had overcome the manifest reluctance of the "patres conscripti" to the pill, but the market steadily refuses to believe in the business at all, and will do so until consummation brings conviction.

A new colony is about to be started on the banks of the Colorado, in the 5th department of the Pampa Central, the lands in question being the property of Messrs. Piazza Hnos. A town will be formed, and the papers were signed yesterday. It is wonderful to note the great movement in the south these few months back. Colony after colony, and lands moving off at high prices where a year ago they would not have been looked at. This 5th department of the Pampa is at present suffering from a prolonged drought, according to advices received recently from that quarter. The once abundant pasture has disappeared and the stock is beginning to show the effects.

Exporters of live-stock complain of the dilatory way in which the proposed shipping bye-laws are being put through. As matters stand at present it seems that there will be no change in the actual regulations in force until the Rural Society's proposed code is taken into consideration, and as the Society will not hold the meeting which is to sit on the code till March next, by that time even the patience of a primeval patriarch would be worn to a shadow. What the exporters want is the rejection of tainted animals only, and they do not object to the bath, but the instructions to the inspectors at present are to reject the whole troop in which a tainted animal is found—a sweeping procedure that must give rise to colossal inconvenience. The "modus vivendi" proposed seems sound and feasible. That ponderous bucolic agent, the Land-league, is moving in the business.

On May 15th we had occasion to announce that several shareholders of the Edison Electric Light Company had lodged a protest before the Court, accusing Mr. Wright of having improperly sold the interests of the concern. We have now to inform our readers that this very grave charge has been completely thrown out by Judge Navarro, who has declared that no fault has been brought home to Mr. Wright, in the fulfilment of his duties as President of the Company, that could give rise even to a civil suit, much less to a criminal accusation. Judge Navarro therefore definitely dismisses the case accompanying this decision by a special declaration, to the effect that these proceedings in no wise affect Mr. Wright's good name, whose costs in the case are to be defrayed by the prosecutors.

The Report and balance-sheet of the New Zealand and R. Plate Land Mortgage Co. Ltd., to 31st Oct. last, presented at the meeting held on 2nd ult., show this company to be in very prosperous financial state. A dividend at the rate of 5% per annum was proposed after due allowances for depreciation etc., and we note that the profits on many operations were not included, being held over till the whole group to which they refer has been realized. From the balance sheet we take following items:—

Interest received on loans on Mortgage R. Plate.....	6,575
Loans on mortgage at R. Plate.....	892,569
Properties taken over at R. Plate.....	46,540
Interest and Rents received at R. Plate.....	35,341
Expenses in R. Plate.....	2,485

From the report we take the following paragraphs which reveal the position and movement in the business:—"The total amount of investments at the River Plate 31st October was £399,109 17s. 9d. which is less than the amount authorized and intended to be kept invested there, the repayments by mortgagors in reduction of their loans and the realizations of properties taken over having exceeded the new advances made by the Company. All loans granted during the year have been of a high class character, and the Directors consider the business of the Company to be progressing satisfactorily in all respects. The amount of debentures has been reduced during the year to £448,358 10s. 0d. The holders of 55 per cent. of these had at the 31st October 1895, assented to a reduction of the unpaid capital of the Company to £4 per share. The proportion of those assenting has been considerably increased since then, and the Directors have no doubt, but it will shortly be much further increased."

The approval of the Railway Guarantees Bill by Congress was immediately cabled to London where the news produced such a good impression that Argentine stocks went up one point in spite of the general depression that damped Capel Court. The passage of this Guarantee Bill is a triumph for Minister Zorrilla, who spared no efforts to push the matter through. Only the other day he induced the Senate to reconsider the adverse vote of the House, and all may remember the eloquence with which he pleaded the cause of the Bill. The President of the Republic was also very eager to see the Bill pushed through, as he was well aware of the excellent effect it would produce in London. The Bill provides for an issue of 50,000,000\$ to settle the much vexed question. The boycotting of Argentine credit in London will cease now.

Our colleague *El Argentino* states that private commercial advices from Germany are alarming, that insurance on German bottoms is difficult and very high, and that orders have come out to ship only in English. Our colleague adds that these advices and orders have been received by several firms. One would suppose that the situation had grown most serious, but the telegrams from London to the banks do not share this feeling of alarm; stock markets are depressed, but no change in the money-rate.

The gold market continued dull and weak at the second ring; a small amount was sold for to-morrow, the premium closing at 231 1/4. Forty five thousand dollars were sold for the end of the month; the premium opened at 233 1/4, and closed at 232 7/8. A hectolitre was done for February at 235.50%. National Caudales Puled weak, falling to 78.20. Primitive Gas shares were quoted at 68.

The following is a summary of the operations effected to-day at the second ring:—

PRODUCE MARKETS.

The talk everywhere was the English-German question and the influence it will have on our produce, the effects are already noticed, as wheat has gone up firmly in London. The transactions in maize are assuming great dimensions, but we explain this by the fact that exporters cannot fulfil their contract in linseed and have to stop the gap with maize. We were quite startled when we heard to-day that several parties were standing out for four dollars. This is indeed catching the bull by the horns. As the strike has abated somewhat, the discussion on these subjects kept back the sales. Lower down we publish the arrivals of wool during the nine past days, which show the enormous difference between the "entradas" and the sales. Several other large important parcels are expected next week; we trust that they do not contain seed, as if they do, they will only serve to further glut our markets. In the Centrals some 600,000 kilos were received and about 400,000 do sold as follows:—

CONSTITUTION.	
Cross-Lincoln wool—7000 kilos at \$9.	9000 at \$3.50, 9000 do \$3.50, 8000 do \$3.
Mezcla—15,000 kilos at \$5, 6000 do 7.90.	5000 do 7.50, 2000 do 6.50.
Fine—2000 kilos at \$8.50, 2000 do 7.90.	24,000 do 7.80, 2000 do 7.90.
Borrage cross—8000 kilos at \$8, 7500 do 7.80, 6000 do 7.80, 4000 do 7.50, 5000 do 7, 6000 do 6.50.	
Sheepskins "consumo"—190 dozen at 0.75, 80 do 0.79, 50 do 0.76, 40 do 0.74 and 0.75.	
Desechos—80 dozen at 0.58, 70 do 0.59, 20 do 0.55.	
Pelados—50 dozen at 0.35 and 0.40.	
Lamb—20 dozen at 3.80, 160 do do 3.60.	
Cow-hides "consumo"—40 cow at 9.20, 100 do do.	
Potros—50 cow at 5.30, 20 do 5.60.	

Maize finds an easy outlet to-day owing to the difficulties exporters meet with in obtaining linseed for which article they had chartered several vessels. Exporters are paying 2.90, 3 and 3.10 for "mo-rocho" maize in the Once, in the Catalinas 3, and in the Riachuelo 3 and 3.10. For yellow maize the following was paid: in the Once from 2.70 to 3.20, in the Darsena, on board, 3.80, in the Catalinas 3.30 and 3.50, and in the Central, for inferior classes, even 3 dollars was paid. Two sales were reported in wheat, one of superior French wheat at 8 dollars and another of good barilleta at 7.40. Old wheat was also more respected, 600 bags were sold for Brazil at 8 dollars and some 7000 bags from the river at 7.50 the 100 kilos. A small parcel of linseed was sold in the Once at 11 dollars, there are several buyers at 10.80, but owners hold out for 10.70.

Hay is also much looked for, both for large and small bales, even mixed hay finds buyers.

The arrivals in the Central Market, from the 3rd to the 9th of this month, were:—

Wool.....	8,492,444 kilos
Sheepskins.....	9,114 bundles
Various.....	16 "
Cow-hides.....	8,264 "
Horse-hides.....	430 "
Horse hair.....	92 bags
Ostrich feathers.....	7 "
Grease and oil.....	189 barrels

The present stock on hand is as follows:—

Wool.....	12,996,950 kilos
Wheat.....	113,676 bags
Maize.....	138,586 "
Various cereals.....	4,008 "
Flour.....	4,114 "
Total.....	260,379 bags

The old cry from Rosario, the locusts are doing great havoc in the maize plantations situated in the centre and North of the Province. In the South, from Firmat to Magliolo there are also great quantities, but the damage is small, as the crops are principally wheat and linseed.

The wheat market has suffered no change the current rates are still on an average of 6.50 and 6.60. Altogether the sales yesterday did not surpass 3,000 tons, prices to be fixed on delivery.

The demand for maize has not yet improved; the prices are slightly better, some lots fetching from 3.20 to 3.25.

Several consignatarios have received orders to supply large quantities of maize which at least must be able to withstand the voyage.

Linseed is growing steadier every day, although the news from Europe is not very favorable; the prices yesterday were from 10.50 to 10.65, some 6,000 quintals were sold at these prices. Owners of linseed who have their crops already here, have retired from the market for the present as they believe that the article must rise stiffly within a short time; the damages caused by the past rains are calculated at 50% loss in the linseed and 30% in the wheat crops.

Business was not on a very large scale in Montevideo, prices were well maintained in wheat. In the past days some 6000 bags of new wheat from Pando were sold at 1.90 delivered in Bella Vista; another sale of 1,000 bags of new wheat was at 2.05, the other lots were too small to mention. Maize continues in a sorry state, due mostly to the want of vessels. We also heard that the supply in Rio is sufficient for some time and that exporters have received orders to limit their operations. Although salted hides are in demand in Europe, no sales whatsoever were reported.

Artistas seem to be in no hurry to enter into fresh transactions, the barracas and deposits are void of attendance. The sale of 1500 bundles of wool, which we announced yesterday, was effected at 2.60 and 2.70 per 10 kilos. In the station the following parcels were sold, 4,000 kilos from goat at 2.30, 6,000 do from Villaboa at 2.40, and some other 81,000 kilos at prices from 2.15 to 2.55 per 10 kilos.

"The bright, moving picture of the country's trade, commerce and production, on the opening year consoles us with the conviction that its future is superior to human error and independent of individual influence."

The above lines, quoted from THE STANDARD of 3rd inst., are the true expression of our sentiments respecting the present position and expected future of the country, if we are to judge from what has occurred to us, as a minute fraction in its common wealth, during the year that has expired, and the hopeful advent of the new year on which we have entered.

If we take our branch of trade, and instance our business in particular, we have to admit that the prospects as regards the country at large are not at all exaggerated in the transport.

The increase in our concern has been beyond our most sanguine expectations during the old year, and, on the eve of the new one, promise is given of a very satisfactory augmentation.

To keep pace, therefore, with this hopeful state of affairs we have made ample provision, and our stock, which is always kept in adequate supply, will be periodically increased with every novelty to meet the increasing requirements of the year.
